

Last Updated: 16.08.2017
Product Code: AD0071

AUTOTRANS 134 FE is a premium, fully synthetic, low viscosity automatic transmission fluid specifically developed to meet the exacting requirements of Mercedes-Benz 7G-Tronic Plus (NAG 2FE+) transmissions.

APPLICATION

Designed specifically for the 7-speed Mercedes-Benz 722.9 NAG 2FE+ units, and only miscible with other MB 236.15 specification products.

Note: Not backwardly compatible with previous MB ATF specifications MB 236.14, 236.12, 236.10 etc.

BENEFITS

- Low viscosity formulation to provide maximum transmission efficiency and fuel economy.
- Exceptional anti-wear protection and oxidation stability for longer component and fluid life.
- Outstanding thermal stability protects against high-stress conditions and high operating temperatures.
- Exceptional low temperature properties for smoother shifts even in extreme cold environments.
- Excellent anti-shudder durability and stable frictional characteristics.

PERFORMANCE PROFILE

Suitable for use where the following specifications are required;

- MB 236.15
- MB A001 989 78 03 09
- ATF 134 FE
- Not suitable or compatible with previous MB specifications/applications
- Not recommended for CVT or DCT transmissions

TYPICAL PROPERTIES

Appearance:	Blue
Specific Gravity @ 15.6°C:	0.840
Kinematic Viscosity @ 100°C (cSt):	4.7 (typical)
Pour Point °C:	-49

HEALTH AND SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Safety Data Sheet is available on request.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
